

The Daily Courant.

Monday, March 30. 1713.

London, March 30.

On Saturday Morning came in a Mail from Holland.

From the Amsterdam Gazette, dated April 4.
Madrid, March 13.

LAST Tuesday arrived here an Express dispatched by the Duke d'Osuna, with Passports for our Ministers who are to be at the Congress at Utrecht. It is affirmed, that the King has expressed his Approbation of the Result of the Council he has established to examine the Project of the Count de Bergeick concerning the Finances; but it is believed his Majesty will not declare himself absolutely on that Head, till the Arrival of the Instructions for the Deputies of the Cortes, that he may have their Advice. The Queen having declared that she is three Months gone with Child, great Joy has been expressed on this Occasion both at Court and in the City.

From the Hague Courant, dated April 3.

Lublin, March 19. The Turks that were incamped along the Danube and the Dniester, expect Orders to march Home, and the Ministers of the Czar are set at Liberty. The 15th Instant arrived here two Turkish Ambassadors from the Tartar Han, whose Names are Solyman Aga de Benderiff Bassa, and Abdala Morza; they were both here last Year, and are commissioned to persuade the King of Poland to suffer those Polanders who are yet with the King of Sweden to return Home with Safety and Freedom, as also to know the final Resolution of the Republick, whether they will assist the Czar or not, and more firmly to establish the Peace. They are sent to the Crown-General, and have Orders to acknowledge the King of Poland.

From the Amsterdam Courant, dated April 4.

Vienna, March 22. Yesterday arrived here an Express from Bender, and several Officers who were in the Retrenchments when they were attacked by the Turks. They confirm all that has been related, and add, that they have no reason to complain of the Turks and Tartars, since they used all gentle Means and Entreaties to prevail with the King of Sweden to be gone according to the Express Orders they had received, and offered to conduct safely into Poland or elsewhere, but that the King would not hearken to it, which so enraged them that they afterwards plundered all the Swedish Prisoners and stripped them to their Shirts, so that several Officers among them had taken a Resolution to quit the Service. 'Tis not yet known to what Place the King and his Chancellor have been transported, but it is thought they are carried to Adrianople. The Turks have begun to prepare an Account of all the Money which has been advanced to the King of Sweden, which cannot but amount to several Millions; and that the Ottoman Porte may not be influenced by the Victory obtained by the Swedes near Gadebusch, the Northern Allies have dispatched several Couriers to Adrianople and Constantinople, to give an Account in what manner the Swedish Army is now blocked up in Holstein, and to what Extremities they are reduced.

Frankfort, March 30. The Emperour has signified to the Diet of the Empire that he will employ the following Troops this Summer on the Upper-Rhine, viz. The Battallion of Guttenstein, Arnan, Went, and Plischau; the Swiss Regiments of Erbach and Diesbach; the Cuirassier Regiments of Neubourg, Hanover, and Alefeld; the Regiment of Dragoons of Schonborn, and the Hussar Regiments of Esterhafi and Bobotzai; making in all 13900 Men. Besides this, his Imperial Majesty will furnish a half Company of Miners, 50 Field-Pieces, and Furniture for laying Bridges. They work continually at Landau, to put that Place into a good Condition of Defence, and a Company of Volunteers is to be put into it. The Duke of Wirtemberg has again writ to the Diet of the Empire, to inform them that the Regiment of Hesse-Darmstadt, which has served for the Contingent of the Elector of Hanover to the Army of the Upper-Rhine, was about to withdraw for want of being paid their Subsistence. That Prince has at the same time redoubled his Instances to oblige each Member of the Empire to furnish his Contingent in good time.

Cologne, March 31. The Landgrave of Hesse-Cassel has ordered his Troops to hasten their March for Flanders. Some Deputies set out from Ruremond last Saturday for Utrecht, with a Deputy from Venlo, to take Care of the Interests of the Upper Quarter of Guelderland at the Treaty of Peace.

From the Paris Letter.

Paris, March 31. Letters from Alliance of the 21st say, that a Detachment of our Troops meeting with a Party of the Enemy consisting of 4 Companies of Hussars who were marching from Landau to Philipbourg, intirely defeated them, killed above 30, and made 60 Prisoners, among whom were several Officers, who were carried to Lautenbourg; and that on our Side there were not above 5 Men killed, and 13 wounded. A Party of 40 Men from the Garrison of Traerbach having advanced too far along the Moselle, were set upon and defeated by one of ours from Saar-Louis. The Army begins to form it self near Haguenau, and is prepared to be in Motion as soon as the Marshal d'Harcourt who is expected in a few Days at Strasbourg arrives, and the Troops who are upon their March from Dauphine to Alliance.

Hague, April 4. The great Misfortune which has befallen the King of Sweden in Turkey is now confirmed on all Hands; and that, if he is not dead of his Wounds, he is at least under Confinement, and will find it difficult to disembarass himself, on account both of his obstinate Resistance, and of the Demands upon him for Money advanced to him during his Abode at Bender, which must amount to considerable Sums. The Affair of the Partition of the Upper Quarter of Gelderland, which has been so long depending, is now finished, to the Satisfaction of the Parties in Alliance, and particularly of the King of Prussia. The Treaty, relating to this, was signed with the Imperial Ministers Sunday in the

the Evening the 2d Instant. By this Convention the Emperor grants to his said Majesty, besides what he possesses already, the Country of Kenel, and the Bailliage of Kriekenbeck, &c. The Emperor keeps the Quarter of Ruremond, with the Town of that Name, Venlo, and Sieverswaert. As to the Bailliage of Erakelen, which lies within the Dutchy of Juliers, the Emperor has transferred it to the Elector Palatine. The Dutch are to have Garrisons in the Places before-mentioned which the Emperor reserves to himself, and by that means will remain Masters of the Meuse, except Ruremond, in which the Garrison is to consist of half Imperialists and half Dutch. Letters from Utrecht say, that they expect a Courier this Evening, who it is believed will bring a favourable Answer concerning the Demands of the Emperor and Empire, in which Case the General Peace will be signed in less than 3 Weeks. The French Plenipotentiaries had made the Demand of Damages for the Expenses committed in Bavaria amount to 18 Millions of Crowns: But it is probable that upon the Representations and pressing Instances of the Ministers of Great-Britain they may withdraw this Demand.

Portsmouth, March 28. Her Majesty's Ships riding at Spithead, are, the Dreadnought, Sapphire, Seahorse, Solebay, and Falmouth. The Crown is now under sail bound for the Downes.
